To Whom It May Concern:

As many of you may know, The U.S. Congress is scheduled to vote on the Omnibus Appropriations Bill this Friday, May 5th. The bill is designed to expand the H-2B Visa cap, increasing the number of allowed work visas this fiscal year. Once approved, we will begin the process of scheduling the remainder of our staff to arrive here in the states. We are anticipating their arrival within the next 4-6 weeks. At that time, we would begin mowing properties on a weekly basis. Until then, our mow staff are limited to bi-weekly site visits.

We are working very hard in the interim to keep all of our properties up to the standards that you have come to expect from Manders Maintenance. Mowing is the only service being affected. All of our other services are being performed according to contract; weekly site visits by Managers/Supervisors, irrigation inspections/repairs, seasonal color installations, pet stations services (where applicable), pre/post emergent, plant, tree and turf fertilization, mulch, broadcasting of ant bait and shrub trimming.

We anticipate June 1st as being the earliest arrival date for our remaining H-2B staff and expect to have an exact date very soon. Thank you for your continued support and understanding.

Sincerely,

Weeks Landscape Management, Inc.
